THE IRON HALL.

DETROIT, Aug. 24.—Attorney Cheever  
this afternoon began eight more suits  
against local branches of the Iron Hall.  
The bill in each case asks for the appoint-  
ment of a receiver, for an injunction  
restraining the officers from using the  
money on hand, and eventually for the  
return of the money, amounting to the mem-  
bers in proportion to the amount each has  
paid in.

INDIANAPOLIS, Ind., Aug. 24.—Supreme  
Court today was this morning ordered  
to make an assignment to Receiver Bailey  
of all funds in custody of the different  
local branches of the Order of the Iron  
Hall. All branches complying with the  
order will be accounted in good standing.

INDIANAPOLIS, Aug. 24.—James Bailey,  
receiver for the Iron Hall, appeared in  
court today and had his bond for \$100,000  
approved. Shortly afterwards property to  
the value of \$300,000 was turned over to  
him by Supreme Court Judge Judge  
Taylor issued an order today making it  
compulsory upon all members to pay their  
two last assessments, if they desire to par-  
ticipate in the final distribution of the  
funds of the order.

ST. LOUIS, Aug. 24.—A suit was filed in  
the circuit court today, asking for the ap-  
pointment of a receiver for the late de-  
ceased of the Iron Hall for Missouri. The ap-  
plication was made by Roman L. Niskup, and  
the defendants are the supreme sitting of  
the Order of the Iron Hall and its local  
branches. The petition states that there is in  
the state \$75,000 of the order's funds; that  
many obligations are unpaid, and that it  
feared that the appointment of a receiver  
in Indiana will withdraw the funds from  
this state.

CLEVELAND, O., Aug. 24.—Suits were  
begun today in the federal court for the ap-  
pointment of a receiver for the late de-  
ceased of the Iron Hall. The courts have en-  
joined the banks from paying out any Iron Hall  
money.

THE DALTONS AGAIN.

YANKEE, Ark., Aug. 24.—James S.  
Wilson, agent of the Kansas and Arkansas  
Valley railroad at Nowata, I. T., a station  
140 miles west of here, was held up and  
robbed late Monday night by three men,  
supposed to be members of the Dalton  
gang. Wilson resigned a few days ago,  
intending to take a trip to San Francisco.

Yesterday traveling auditor Wright and  
traveling passenger agent Johnson arrived  
for the purpose of checking up his books.  
They were engaged in that work last  
night when the bandits entered and covered  
them with revolvers and for some time  
commanding them to throw up their hands.  
Mr. Wilson, the railway agent, was then  
compelled to open the safe. While the  
contents of the safe were being examined,  
Wilson and Johnson were held up. The  
Dalton gang, the third emptied the  
contents of the safe into sacks. About  
\$1,500 in cash was secured. After re-  
leasing Wilson and Johnson, the bandits  
watched each and what money they had,  
the highwaymen backed out of the door and  
disappeared in the darkness. A posse has  
been started in pursuit. The Dalton gang  
in the vicinity for three days, and there is  
no doubt that the robbery was committed  
by that gang. If the posse overtakes  
them a severe battle will ensue, as both  
sides are armed to the teeth.

LYNCHED, GA., Aug. 24.—Last night  
A. L. Dick, with two other officers, arrested  
Edward Howard (colored), charged with  
shooting James Townsend from ambush  
on August 9th, and started with the  
prisoner on his way to Hainesville. When  
the Sandy river road was reached a mob of  
men took charge of the prisoner. The  
officers were told to leave the mob. Which  
they did. The body of Howard had been  
today riddled with bullets at the point on  
the road where he was taken from the  
constables.

## THE STRIKE OFF.

THE BUFFALO SWITCHMEN LOSE  
THEIR FIGHT.

The Chiefs of the Allied Railway  
Orders Refuse to Indorse the  
Sympathetic Striker.

Their Old Places.

terfering With the Running of

gots Blown Up With Dy-  
namite at Pittsburg.

THE HOMETOWN  
Mills—Notes.

BUFFALO, N. Y., Aug. 23.—At midnight  
Mr. Sweeney, head of the switchmen's  
order, officially recognized the fact that  
the strike of the switchmen which was in-  
augurated twelve days ago in this city  
had failed. In the official terms of the  
order the strike was declared off. The men  
who were formerly employed as switch-  
men in the railroad yards here will before  
long be notified by their local officials that  
the purpose for which they quit has not  
been accomplished and that they now are  
at liberty to get back their places if they  
can. The beginning of the end of which  
was until last Sunday, almost a general  
strike of the switchmen in the Buffalo  
railroad yards, was marked by Mr.  
Sweeney's appeal to the heads of the order  
to meet him in conference.

It was brought face to face with the  
fact that, as stated in these dispatches,  
there was no longer any strike of switch-  
men in the Buffalo yards. The fact that  
the yards had resumed the normal course  
of business without the men who had left  
their employment pressed home to the  
general master the conviction that his local  
followers had become no longer striking  
switchmen, but were like men who were  
work in the throwing of switches, but  
whose positions had been filled without  
profit to themselves. Then the leader  
was brought to see that the strike of  
switchmen in the yards that if his men  
were saved at all, some power beyond his  
resources or theirs must be invoked.

At this point the fact should be stated  
which has not been made public, as one of  
the hampering conditions which entered  
into the problem which Mr. Sweeney had  
set himself to solve. It was that the  
order are exceedingly limited. The organiza-  
tion is without reserves and without  
money. The leader who has been trying  
here to win against the railroad has  
found how necessary is a bank account in  
an organized effort of labor for the estab-  
lishment of new conditions which are not  
acceptable to railroads with large money  
reserves. Thus, at the close of last week,  
with the physical fact of a renewed traffic  
movement by the railroad, confronting  
him, and with the knowledge that his men  
were saved at all, some power beyond his  
resources or theirs must be invoked.

When this fact was stated to Mr.  
Sweeney, he knew that his cause was lost.  
He turned, as a last resort, toward the  
organization of railway workers, and his  
communications to Messrs. Clark, At-  
thur, Wilkinson and Thurston were in-  
dications that the switchmen must con-  
front without fraternal aid.

of Silver.

Notes.

HAMBURG, Aug. 24.—Yesterday there  
were 310 cases of cholera and 130 deaths.  
Eighty new cases were reported today.

ANTWERP, Aug. 24.—For some little  
time past there has been a number of  
suspicious cases of sickness in this city, but  
the authorities have steadily maintained  
that the disease is not the dreaded Asiatic  
cholera. This statement received its falsifi-  
cation today, at least as far as Antwerp  
is concerned. The leading physicians of  
Antwerp now declare that the disease is  
true Asiatic cholera. "Bad disease is now  
admittedly present in three great northern  
European ports—Hamburg, Antwerp and  
Havre—and there is a strong suspicion that  
the so-called cholera at Sicilia will  
turn out to be Asiatic cholera. The an-  
nouncement that the fatal scourge has ap-  
peared here has caused a feeling of  
depression, and many of the wealthier resi-  
dents are leaving the city.

WASHINGTON, Aug. 24.—The following  
dispatch was received at the state depart-  
ment today from the United States consul  
at Hamburg:

"Hamburg emigrants must be regarded  
as coming from a cholera-infected district.  
I shall see that steamers and baggage are  
disinfected."

The department has more reassuring  
news from Havre relative to the reported  
epidemic of cholera there. Consul  
Williams telegraphs that Paris and Havre  
medical experts have held a conference,  
and, after a full examination, admit the  
presence of local cholera. They deny,  
however, that it is Asiatic cholera. The  
disease is not spreading, and the alarm is  
now subsiding.

The treasury department is following up  
its precautions heretofore adopted.  
It will use all means at hand to keep cholera  
out of the United States.

NEW YORK, Aug. 24.—The quarantine  
officials at this port are busy preparing to  
prevent any importations of cholera from  
any of the European countries. Orders  
have been given by the commissioners to  
have the fever steamer Samuel Carlin  
ready for hospital use in the lower bay as  
soon as required. There are five vessels  
due this week from Hamburg, where  
cholera is now raging. These ships have  
about 100 passengers each, and will be  
detained at quarantine and thoroughly  
examined.

The French steamer La Touraine, which  
left Havre last Sunday, is due here on  
Saturday. As cholera is also reported at  
Havre, the vessel will be duly subjected to  
the quarantine regulations on its arrival.  
PITTSBURG, Aug. 24.—Having been  
officially notified of the prevalence of  
cholera in foreign ports, the board of  
health today adopted stringent measures  
to prevent the disease from being intro-  
duced into this country through this port.  
Hereafter all vessels arriving from cholera  
infected ports will be detained at quaran-  
tine until all baggage, bedding, etc.,  
aboard has been disinfected.

MR. GLADSTONE.  
LONDON, Aug. 24.—Mr. Gladstone has  
been re-elected for Middlesbrough. He had  
no opposition.

The Associated Press representative  
learns that Mr. Gladstone has sent a  
letter to Mr. Labouchere, saying that he  
alone is responsible for not presenting Mr.  
Labouchere's name for the post office, and  
certainly for not appointing Mr. Labouch-  
ere in no wise reflect upon Mr. Labouch-  
ere's public life or services.

In response to inquiries as to the truth  
of the rumor mentioned by the Chronicle  
this morning to the effect that Mr. Glad-  
stone would retire from office in the  
spring, Mr. Gladstone telegraphs, "I  
have no intention of doing so."

He writes that the whole story is utterly  
groundless.

The Morning asserts that it is alleged  
on good authority that the question of  
not having a candidate for the appointment of  
Mr. Labouchere to any post in the new  
cabinet where he would not be thrown in  
direct contact with his majesty, and adds:  
"We know as a fact that Mr. Gladstone  
overcame all difficulty by never even men-  
tioning Mr. Labouchere's name at Osborne  
house."

THE HOME RULE BILL.  
LONDON, Aug. 24.—The Chronicle this  
morning gives the substance of the main  
lines of the home rule bill as believed to  
have been agreed upon by Messrs. Glad-  
stone, McCarthy and Dillon.

Fourth.—That the receiver general of the  
bill of 1890 shall be disposed with.

Fifth.—That, on the other hand, there  
shall be only one customs department,  
and the Irish parliament shall have no  
power to levy separate duties.

Sixth.—The only veto shall be the royal  
veto, to be exercised on the advice of the  
English ministry.

INDIA AND SILVER.  
LONDON, Aug. 24.—The Times declares  
that the closing of the India mints against  
the coinage of silver would be a dangerous  
expedient, as inducing a considerable dif-  
ference between the value of the coined  
and uncoined metal, thus stimulating un-  
desired private coinage, and that the arti-  
ficial values given the rupee would deprive  
India of a monetary unit of any kind. As  
the proposed bill would have the effect of  
sympathy. The Times agrees with Sir  
David Harcourt in the India control that a  
common standard of value for England  
and India is absolutely essential and India  
would be the best possible standard, but it  
would raise difficulties. For example,  
what is to be done with the silver coinage  
now in private hands?
